EDUCATION

MASTER'S DEGREE IN INFORMATION SYSTEMS ENGINEERING

Semlalia Faculty of Science
2023 - 2025

PROFESSIONAL DEGREE IN INFORMATION SYSTEMS ENGINEERING AND NETWORKS

higher school of technology
2022 - 2023

TECHNICAL UNIVERSITY DEGREE IN COMPUTER ENGINEERING

higher school of technology
2020 - 2022

SKILLS

Java | JavaScript | TypeScript | SQL |
SpringBoot | Reactjs | Nextjs | Express |
Nestjs | Nodejs | React Native | Expo |
Tailwindcss | Bootstrap | MaterialUI |
Shadcn | Zustand | Redux | MySQL |
PostgreSQL | MongoDB | SQLite | Supabase |
| Git | Docker | Postman | GraphQL,
WebSockets | Clerk | UML | Merise | Scrum |
Clean Architecture | Junit | Mockito

SPOKEN LANGUAGES

- Arabic: native language
- English: Fluent (C1 - Advanced professional)
- French: Fluent (B2 - Operational)

SOFT SKILLS

- Team spirit and technical leadership
- Fluent interpersonal communication
- Creative problem solving
- Adaptability to agile environments

CERTIFICATIONS

- [Advanced React](#)
- [PostgreSQL Design](#)
- [Versioning with Git](#)
- [JavaScript Programming](#)

EXPERIENCE

FULL STACK INTERN (NEXT.JS / NODE.JS) PFE

ZtechEngineering | Feb - Aug 2025

- Designed and developed a digital services management application (SSL, hosting, applications).
- REST API integration, modular architecture with Next.js and Node.js.
- Developed key features for the International Responder System website with React, Supabase, and Docker.

FULL STACK INTERN (LARAVEL / VUEJS)

Communauté Urbaine de Safi | April - May 2023

- Design of a document management solution with WebSockets and adaptive interfaces.
- Agile collaboration by integrating VueJS with Laravel to reduce processing times.

FULL STACK INTERN (NODEJS / REACTJS)

Communauté Urbaine de Safi | April - May 2022

- Implementation of a real-time chat system using React, MongoDB, and Socket.io.
- Modern interfaces via Chakra-UI for a better user experience.

INTRODUCTORY INTERNSHIP (HTML/CSS/PHP)

Atlanta Sanad Assurance | July 2021

- Creation of a professional showcase website with a dynamic form integrating PHP-Mailer.

KEY PROJECTS

REACT-FLAG-ICONS: OPEN SOURCE PROJECT

- React library of flag icons for optimized web display. (NPM : [react-flag-icons](#))

NODEARCHGEN CLI: OPEN SOURCE PROJECT

- CLI generator for Node.js architectures that comply with Clean Architecture best practices. (NPM : [nodearchgen](#))

REAL-TIME CHAT APPLICATION

- Collaborative application with authentication, WebSocket responsiveness, and modular design. (GitHub : [chat-app](#))
